

THE MASTER DATABASE OF BASSETTS

This is a database of Bassett Records, primarily but not exclusively from the south of England. It will eventually cover the whole of the British Isles.

It cannot be displayed from individual pages by using the DESCENDANTS tab as most records are not linked. However information on known individuals can be displayed by entering the name into the SEARCH BOX on the Home Page.

Additionally the whole database is available in a gedcom file. To request a gedcom go to the INFO tab on the HOME PAGE and select "CONTACT US".

Information on links found and further information on individuals included will always be welcome as will corrections to any errors unwittingly included.
